

Financial Planning with the “Right” Perspective

The Times Examiner
January 10, 2005

“I prefer working with someone who shares my values and concerns.” “I like to support businesses that support liberty.”

Do those statements ring true of you as well? It is certainly the sentiment of many clients of Greenville’s Integrity Group, whose clients have been well-pleased with both the creative, personalized service they have received. They are also pleased with the political and economic philosophy of Integrity Group’s founder: Dr. John Cobin. If you have a need to improve your financial plan, it will be well worth your while to get in touch with Dr. Cobin today.

If you have been reading Dr. Cobin’s weekly column in *The Times Examiner* you know that his commitment to liberty, free markets, and constitutional limited government is impeccable. He regularly participates in, or at least attends, many “right-wing” local meetings, including Americans for Constitutional Government, the Carolina Patriots, the Upstate Libertarian (Party) Society, the Greenville Taxpayers Association, and other true conservative or libertarian groups. Dr. Cobin’s show “Christian World View” can also on the radio weekdays from 7:30am to 9:00am on the growing Tyranny Response Network—which is being carried by 97.7 FM in Greenville, SC.

Dr. Cobin is an author, columnist, financial planner, and international lecturer. He holds several advanced degrees, including a Ph.D. in Public Policy and an M.A. in Economics from George Mason University, Fairfax, Virginia, and an M.A. in Business Economics from the University of California at Santa Barbara. He is also a graduate of Reformed Bible College in Grand Rapids, Michigan. Dr. Cobin is an outspoken critic of public schooling, government regulation, IRS abuses, state monetary policy, welfare programs, and abortion. His latest scholarly articles and books include “Abortion Policy and the Market”, *Bible and Government: Public Policy from a Christian Perspective*, and *A Primer on Modern Themes in Free Market Economics and Policy*. An Evangelical Christian and the father of six homeschooled children, Dr. Cobin is applauded by listeners and readers across America and around the world as a champion of liberty, limited government, free markets, and peace. Integrity Group provides full service financial planning under Dr. Cobin’s guidance. Thoughtful, personal service is provided to a wide range of clients through application of John’s extensive knowledge of securities and insurance products, as well as tax and legal (e.g., asset protection, trusts, offshore, estate planning) strategies. Whether you are in need of something as basic as major medical or term life insurance, retirement accounts, or more elaborate estate and asset protection planning, Integrity Group is the place to go.

Please patronize the Integrity Group. Dr. Cobin counts on your support to finance his important work in promoting liberty and free markets (which are largely volunteer efforts).
